

ADEC AERMET Data Summary

2007 – 2011 Saint Paul Airport

Issue/Revision Date: October 17, 2013

The Alaska Department of Environmental Conservation (ADEC) is providing the following previously approved AERMOD-ready meteorological data files for general use. Applicants who use these files should state that they obtained them from the ADEC's web-site. They will also need to demonstrate that the data are representative of the transport conditions at their stationary source. However, they will not need to provide quality assurance information or the supporting AERMET files. Additional information regarding the data/AERMET surface parameters used to generate these files may be found in the indicated permit application/technical analysis report.

Data Set (Name/WBAN #): **Saint Paul Airport (25713)**
