Andrew Lorenzana, Environmental Operations Manager  
Princess Cruises  
242000 Magic Mountain Parkway  
Santa Clarita  
CA 91355-1283

Date: January 2, 2009

Subject: ADEC Source Reduction Evaluation Chemical Usage and Ingredients

Dear Mr. Lorenzana,

The Unitor chemicals used by Princess vessels which may enter the black or grey water system do not contain Zinc, Copper, Nickel or Ammonia.

I trust this meets with you approval.

Yours sincerely,

Paal Berg  
Key Account Manager
