## Alaska Maritime National Wildlife Refuge (NWR) - Tuxedni Wilderness

### Studies and Monitoring

Denali National Park Monitoring Station

The Tuxedni Wilderness has its own unique environmental concerns based on its unique ecology. Air quality studies and monitoring at Tuxedni Wilderness focus on fine particles and visibility. Click on the tabs below to review air quality studies and access information on air quality monitoring in and near the Tuxedni Wilderness.

## Monitoring

### Air quality monitoring information and data access:

Air Pollutant/Impact	Monitoring Program	Sites and Data Access
Nitrogen and sulfur	National Atmospheric Deposition Program <a href="#">NADP</a>	Katmai National Park (site AK97) Denali National Park (AK3) <a href="#">NADP site AK97</a> <a href="#">NADP site AK3</a>
Ozone	Alaska Department of Environmental Conservation <a href="#">ADEC</a>	Denali National Park AQS site 020680063 and Anchorage, AQS site 020200018 <a href="#">EPA's Air Quality Data Mart</a>
Mercury	NADP - Mercury Deposition Network <a href="#">NADP MDN</a>	Kodiak, AK (site AK98) <a href="#">NADP site AK98</a>
Visibility	Interagency Monitoring of Protected Visual Environments <a href="#">IMPROVE</a>	Visibility Information Exchange Web System <a href="#">VIEWS</a>

Abbreviations in the above table:

IMPROVE: Interagency Monitoring of Protected Visual Environments  
MDN: Mercury Deposition Network  
NADP: National Atmospheric Deposition Program  
VIEWS: Visibility Information Exchange Web System  
EPA: Environmental Protection Agency  
ADEC: Alaska Department of Environmental Conservation

## Studies

Studies to be added upon request of the Refuge.
