IAP COVER SHEET

June 2000

005

1. Incident Name MV SELENDANG AYU	2. Operational Period (Date / Time) From: 12/14/2004-06:00 To 12/15/2004-06:00	INCIDENT OBJECTIVES ICS 202-OS									
3. Overall Incident Objective(s) 1. Protect the health and safety of the public and responders. 2. Protect sensitive areas to minimize impact to the environment, cultural, subsistence, and economic resources and property. 3. Assess the condition of the vessel and prepare alternative courses of action for review. 4. Conduct on-water recovery operations, develop plans, and implement as appropriate. 5. Establish SCAT program to assess shoreline impacts and recommend clean-up measures. 6. Provide wildlife recovery and rehabilitation as needed. 7. Mobilize resources needed for the response. 8. Refine and modify incident command organization suited to expected needs and contingencies. 9. Provide thorough liaison with local agencies and communities to keep them informed and address their needs and concerns. 10. Provide accurate information to news media and the public. 11. Provide proper documentation of the response. 12. Develop waste management plan. 13. Evaluate potential to improve local weather reporting capability.											
4. Objectives for specified Operational Period Discovery of aircraft parts: - If your people find aircraft parts in the water or on any shore line, please instruct them to note the location (as accurately as possible), and bag and tag the items and bring them in if possible.											
5. Safety Message for specified Operational Period - Winter conditions warrant special consideration for driving and potential exposure. Take appropriate precaution. - Take notice of the city tsunami warning system. A long extended blast indicates a tsunami is probable, seek higher ground. - Any personnel working around or with oil shall receive appropriate hazwoper training IAW training matrix in site safety plan attachment. PPE - Flight ops (fixed and rotary): All personnel will wear a mustang type suit (dry / immersion not required unless determined by pilot). - Boat ops: Masters / commanding officers will establish requirements for cold weather gear working on WEATHER DECKS. Minimum requirements are a float coat / type 2 floatation device. A dry suit / immersion suit will be carried on board for each person. - Small boat ops (skiff): All personnel will wear a Mustang type suit (Dry / immersion suit is not required to be carried on board unless determined by platform master for specific operations such as leaving on beach for an extended period of time for SCAT operations. Approved Site Safety Plan Located at:
